

# CAPABILITIES STATEMENT

UEI: TP12K5EEJVA4 | CAGE: 97R11

## ABOUT US

Nginering specializes in IT modernization and digital transformation. We build, modernize, and migrate mission-critical financial software to enhance government services in areas such as loan management, housing assistance, insurance, grants, and financial aid.

By engineering effective software, cloud, and data solutions, we empower government agencies to achieve their current and future goals with confidence.

## PAST PERFORMANCE

**HUD FHA Catalyst Mortgage Insurance Platform.** Designing and implementing the Federal Housing Administration (FHA) Catalyst platform to replace legacy Single Family Housing system.

**HUD S3R Reporting System.** Building a modernized, high-quality reporting tool and platform to increase economic opportunities for HUD residents.

**USDA RD Direct Lending Platform.** Building and rolling out a modern, FedRAMP authorized cloud-based Loan Origination System (LOS) using the Scaled Agile Framework (SAFe).

## SERVICES

### Software

- Single Page & Web Apps
- Microservices
- Software Delivery Pipelines
- Low Code & Mobile Apps
- Secure Software Testing

### Cloud

- Cloud Architecture & Security
- Cloud Migration & Implementation
- Secure Cloud Operations
- AWS, Azure, & Salesforce

### Data & AI

- Data Architecture
- Data Pipelines & Operations
- Secure Data Engineering
- BI & Analytics
- ML & AI

## DIFFERENTIATORS

- GSA MAS Contract Holder
- AWS Select Tier Services Partner
- AWS Public Sector Partner
- Contract Vehicles: GSA MAS
- 25+ years of experience supporting federal government clients
